PROFILE SUMMARY

As a results-driven BCA student with a keen focus on Product Management, I am deeply passionate about discerning user needs and utilizing data to craft impactful digital solutions. My hands-on experience in UI/UX design, data analytics, and comprehensive understanding of the product lifecycle empower me to effectively translate innovative ideas into functional products that address real-world challenges. With a robust foundation in agile workflows and product strategy, I am eager to bring my skills to an entry-level PM role where I can drive meaningful progress and deliver exceptional results.

WORK EXPERIENCE

- EveTech
Intern, Talent Sourcing
NOV 2024 - JAN 2025
 - Sourced a high-volume talent pipeline of over 1,000+ qualified leads, including founders, CEOs, and HR leaders, by leveraging tools like Apollo.io and ContactOut.
 - Utilized Power BI and Excel to clean and validate a large dataset of candidate information, ensuring high data integrity for the recruitment team.
 - Acted as a first point of contact for potential candidates, honing communication and stakeholder management skills.
